Information and stats:

Three House combinations

32 of the available 35 three deck combinations available in World Collide sealed were represented. All of the decks that made it through to the cut had a different three house combination.

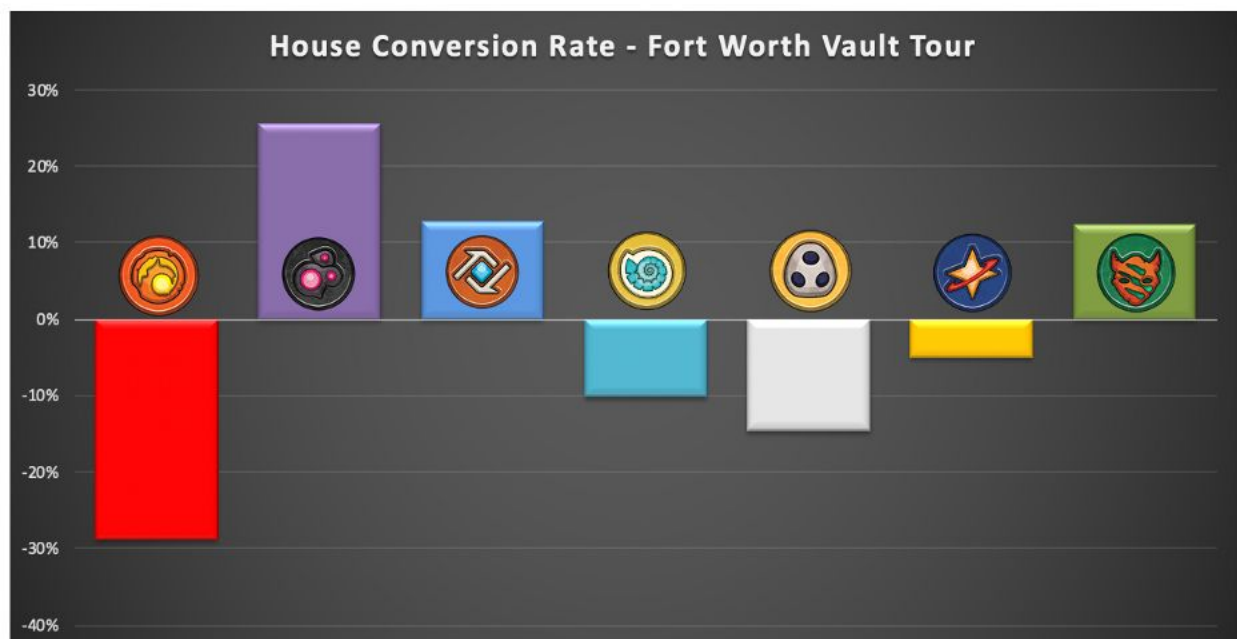

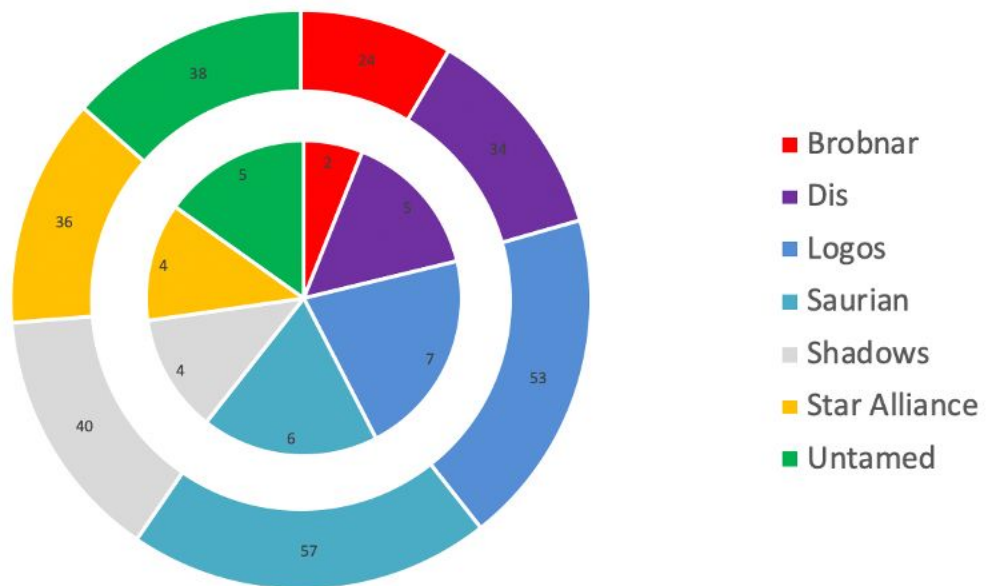

Being a Sealed Vault Tour we expect to see a greater variance in the decks that are used.

House representation and conversion to day 2.

We saw Dis have the highest conversion from day one to day two. Brobnar had a low representation in day one, but also had the lowest in day two with only 2 decks containing Brobnar in the cut.

House Representation - Day 1 outer, day 2 inner - Fort Worth Vault Tour
